CPAN: Actively Enrolled Physicians

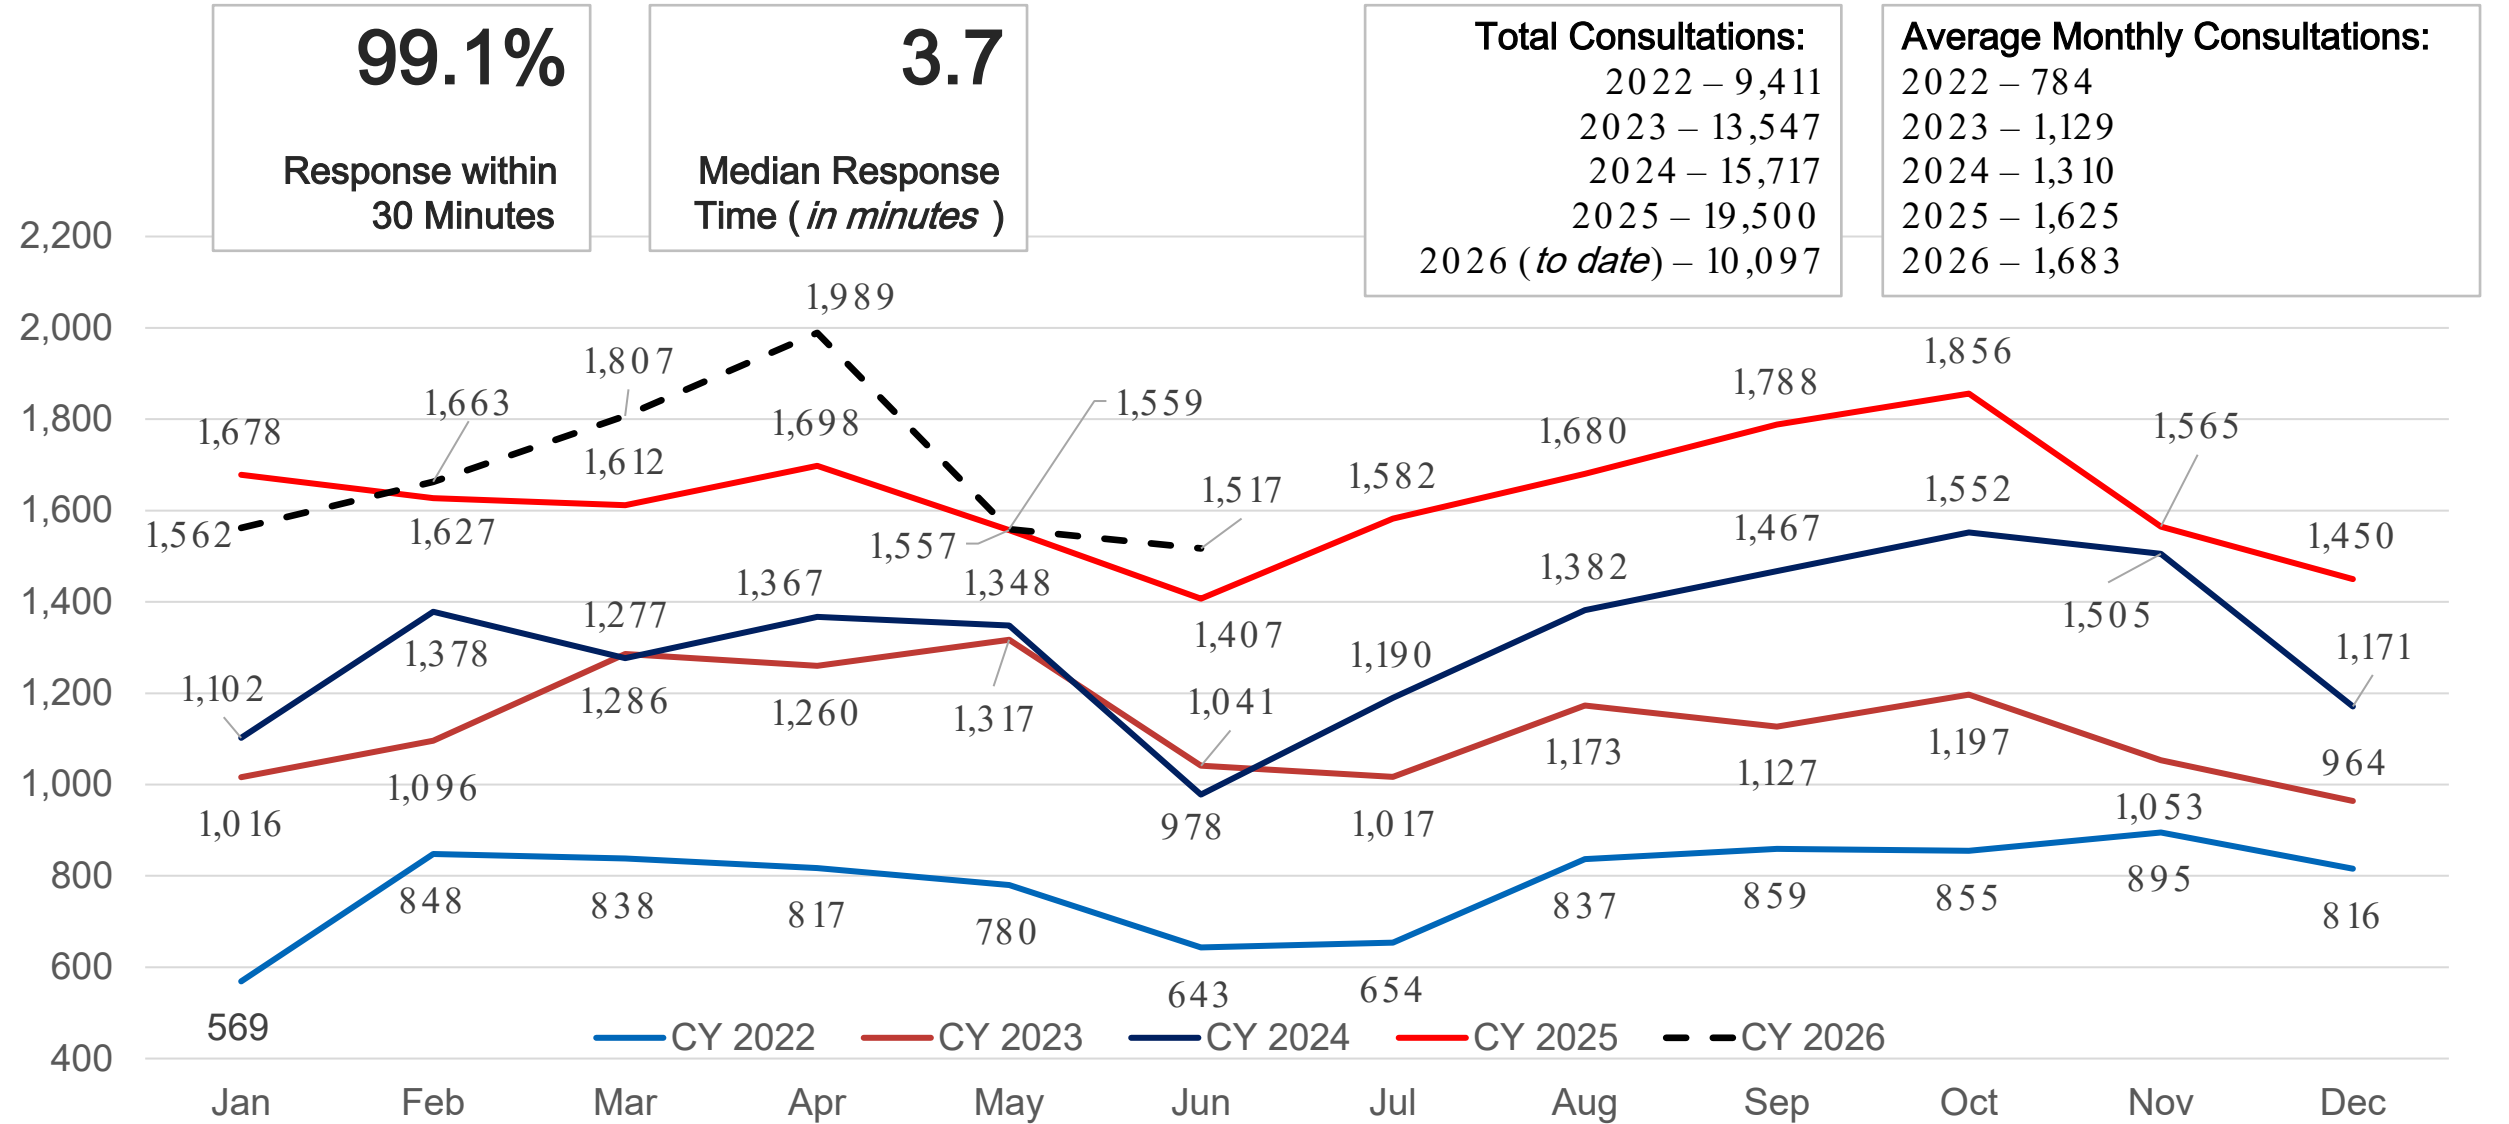

(as of June 30, 2026)

Explanatory note: This graph presents the total number of actively enrolled CPAN primary care physicians (i.e., General Practice / Family Doctors & Pediatricians). The data source for this graph, the Trayt directory (enrollment) file, contains physicians eligible for both CPAN and PeriPAN, and therefore it cannot be readily separated by program eligibility. As such, this graph presents a more focused view of physician specialties who most frequently use CPAN.
