TEXAS CHILDHOOD TRAUMA RESEARCH NETWORK

TX-CTRN is a part of the research initiative of the [Texas Child Mental Health Care Consortium \(TCMHCC\)](#).

This initiative unites a statewide network of experts working together to better understand, prevent, and treat childhood trauma.

Through research studies, TX-CTRN supports informed decision-making and works to bridge the gap between mental health services available to children and adolescents in Texas. To date, more than 4000 youth have participated in a study about the impact of childhood trauma.
